## ABOUT THE COLLEGE

Syon College Abohar was established in 2015 to impart modern knowledge along with the Vedic traditions to the youth of contemporary India. The institution has matchless service of growth and grooming of youth in this part of the country. It becomes Imperative for us to acquire new ways of thinking and new concepts and perceiving reality. This paradigm shift towards a new World Order compels us to 'innovate'. For this, we at Syon College are always taking challenges, finding opportunities, and devising changes to foster development. We believe in adjusting the existing educational systems into a system that is universal and holistic, thus making every student a 'global' student.. The Institution's campus is WiFi enabled with modern infra-structure that includes spacious and well-equipped classrooms, well-stocked library, computer labs, vast and well-maintained playgrounds, manicured lawns complete the picture of the college.

## OUR VISION

**Transforming lives and communities through learning.**

## OUR MISSION

To provide affordable quality education while equipping students with knowledge and skills in their chosen stream, inculcate values, identify hidden talents provide opportunities for students to realize their full potential and thus shape them into future leaders, entrepreneurs and above all good human beings.

## INTRODUCTION

The Green Audit of Syon College was conducted to assess the environmental practices and sustainability measures adopted by the institution. The aim was to identify areas of improvement and provide recommendations to enhance the college's environmental performance. This report presents the findings, analysis, and recommendations based on the audit.

## METHODOLOGY

The green audit was conducted through a comprehensive evaluation of various environmental aspects of the college, including energy usage, water management, waste management, biodiversity, and awareness programs. The methodology involved

- Site inspections
- Data collection
- Interviews with staff and students
- Analysis of existing records and practices.

- Findings and Analysis

## 1. ENERGY USAGE

### Current Status:

**Electricity Consumption:** The college uses electricity primarily for lighting, air conditioning, and laboratory equipment.

**Renewable Energy:** There is Solar Panel for utilization of renewable energy sources.

### Analysis:

Total energy consumption is determined as 37kWh/month by major energy consuming equipment. College has provided class rooms and laboratories with proper light and ventilation provision for energy conservation. Earth Leakage Circuit Breaker has been installed at various locations on the campus to prevent current leakage and protect other electrical installations. College has placed notice boards for employees and students to off the lights and fans whenever not needed also Conducted internal Energy Audit Regular maintenance of electrical appliances to save the energy consumption Collage has used of Light Emitting Diode (LED) and Compact Fluorescent Lights (CFL) bulbs which have revolutionized energy-efficient lighting. Equipment like Computers is used with power saving mode. The electricity was shut down after occupancy time as one of the practices for energy conservation.

## 2. WATER MANAGEMENT

Current Status:

Water Sources: The college relies on municipal water supply and borewell.

Usage: Water is primarily used in drinking, cleaning, washrooms, laboratories, and for landscaping.

Analysis:

Water Conservation: water conservation measures such as rainwater harvesting or water recycling are in place.

Leakages: Instances of water leakage were observed in some areas.

## Current Status:

### Waste Segregation:

#### Solid waste management

The college has implemented a solid waste management system which involves segregation of wet, dry, paper and green waste. Solid Waste Segregation is done by hand sorting. The dry waste which includes paper, cardboard, plastics, scrap materials is separated from others. Organic and green wastes like the leftover food, peels, scrapings from fruits etc are also collected in bins separately and used as manure for gardening purpose. Plastic and paper waste is comparatively less. our Institution reuse the papers (one-sided) for off the record work of the college. Waste Paper boxes have been placed at appropriate places in the labs, staff rooms and Administrative room of the Institution.

#### E-waste Management

The College segregates old computers, batteries and wires and dispose them at regular intervals. As these are handed over to the authorized agency Sairam Computer Solutions.

Vermi- composting to use biodegradable waste collected from the campus.

Recycling: Minimal recycling practices are followed.

### Analysis:

**Solid Waste:** Facilities for composting organic waste and institution has paper less software i.e ERP

**E-waste:** For disposing of electronic waste college tie up with authorized agency Sairam Computer Solutions.

## 4. Biodiversity

### Current Status:

**Green Cover:** The college campus has a maximum amount of green cover, including lawns and trees. This includes the plants, greenery and sustainability of the campus to ensure that the buildings conform to green standards. This also helps in ensuring that the Environmental Policy is enacted, enforced and reviewed using various environmental awareness programmes.

**Flora and Fauna:** Moderate diversity in plant species.

### List of plants in campus

SR.NO	VEGETABLES PLANTS
1	Brinjal
2	Lady's finger
3	Green Chilly
4	Beans
5	Asparagus
6	Tomato
7	Onion
8	Cauliflower
9	Cabbage
10	Radish pods
11	Spinach
12	Garlic
13	Coriander
14	Mint
15	Fenugreek
16	Radish
17	Bottle gourd
18	Fennel seeds
19	

## List of Fruits cultivated

SR.NO	FRUITS
1	Papaya
2	Guava
3	Pomegranate
4	Kinnow
5	Beri
6	Mulberry
7	Malta
8	Pear
9	Black plum
10	Lemon

### Analysis:

**Green Initiatives:** Need for increasing the variety of native plant species to enhance biodiversity.

**Habitat Creation:** Potential for creating habitats such as butterfly gardens and bird feeders.

## 5. AWARENESS PROGRAMS

### Current Status:

**Environmental Education:** The college incorporates environmental topics into the curriculum.

**Campaigns:** Timely Awareness campaigns are conducted.

### Analysis:

**Engagement:** Satisfactory level of student and staff engagement in sustainability initiatives.

**Programs:** Increase no of workshops and training sessions on environmental sustainability.

## RECOMMENDATIONS

Based on the findings and analysis, the following recommendations are made to improve the environmental performance of Syon College:

### 1. Energy Usage

**Renewable Energy:** Install more solar panels to harness renewable energy and reduce dependence on grid electricity.

**Energy Audits:** Conduct regular energy audits to identify and mitigate inefficiencies.

### 2. Water Management

**Fix Leakages:** Repair water leakages promptly to prevent wastage.

**Water Recycling:** Install systems for recycling grey water for non-potable uses.

### 3. Waste Management

**Awareness:** Conduct workshops on waste segregation and management.

### 4. Biodiversity

**Plantation Drives:** Organize tree plantation drives with a focus on native species.

**Habitat Creation:** Develop green spaces like butterfly gardens and install bird feeders.

### 5. Awareness Programs

**Regular Workshops:** Conduct regular workshops and training sessions on environmental sustainability.

**Student Involvement:** Encourage active student participation in green initiatives and clubs.

**Campaigns:** Organize frequent awareness campaigns and competitions on environmental themes.

## Conclusion

The Green Audit of Syon College highlights the need for significant improvements in various environmental aspects. By implementing the recommended measures, the college can enhance its sustainability practices, reduce its ecological footprint, and promote environmental awareness among its stakeholders.
